EXPERIENCE

CredAble, Noida— *Assosiate Product Engineer*

feb 2022 - PRESENT

- **Java Developer** with experience in developing web-based applications for automating capital market funding and integrating user data verification systems.
- Customized the **UpScale** product for Aditya Birla Group and developed our **Upscale-Accounting** platform for **Mahindra First Choice vendors and Reliance**.
- Proficient in debugging, production support, deployments, build management, GIT branching, peer code reviews, and QA collaboration.

PROJECTS

UpScale— *Credable & Aditya Birla Groups*

- Access unsecured business loans from a network of 10+ banks and NBFCs effortlessly.
- Streamline payment experiences and verify business contacts efficiently, including bank accounts, PAN details, and GSTIN, with automated reminders and powerful growth tools.
- Seamlessly integrating multiple third-party REST APIs and developing sophisticated banking rule engines for loan processes.
- Skilled in creating secure and authenticated RESTful APIs and designing MySQL databases tailored to project requirements.

Account Receivable — *CredAble*

- India's leading e-invoicing solution for SMEs, offering affordability and compliance with mandatory regulations for businesses with turnovers exceeding Rs 10 crore since 2017-18.
- Worked from scratch , with only three members including me.
- Create Invoices , credit note , debit note , receipt , e-invoices templates in jasper.
- Created apis for parsing bulk excels.

Fundx - *CredAble* ~ Loan management and disbursement system.
Led the migration of existing systems to an event-driven architecture, replacing scheduler-based processes with an AWS-driven event-driven approach to improve scalability and responsiveness.
